About the **Company**

Al-Batin, Equipments Divison

based in **Al jubail, Saudi Arabia** is a fully comprehensive access provider furnishing our client base with the best collaboration of solutions to bring projects in on time and budget. **AL-BATIN** favour large bespoke projects which are treated as "individual business units". The unique approach pairs a senior manager with a full time designated project team consisting of secretarial, design, field and management back up. **AL-BATIN** was founded in 2012 and since that time the company has grown in the breadth of its operations and its capacity to undertake large scale and challenging complexity projects. The sustained growth of the company has been largely funded from its profits being reinvested. The management team at **AL-BATIN** have been and will always be committed to its continued growth and success. The company's track record points to a founding vision – offering highest levels of service in the industry, incorporating the most modern and innovative advances in technology backed up with demanding requirements of professional expertise in the workforce. Earning the trust of clients and working partners remains as undiminished as the day business began and will continue to be the driving force of our growth.

Vision

Our vision is to make a difference with the perception of our industry through innovation, presentation and our customers' partnership.

Mission

Our mission is to care for our whole team, our customer and everyone affected by our work.

1. To be efficient, innovative and "best in class" with everything that we do.
2. Our "Delivering Safety First" commitment is at the forefront of our business is at the forefront of our business at all times.
3. To maintain healthy and sustainable profitability.

Core Values

The Principles that guide our company strategy and our individual actions.

People

People are the heart of our business. We are team players focused on a collaborative solution to business challenges. We aim to attract, develop, and retain the best people treating each other with honesty and respect.

Innovation

Innovations are recognized early on, tested, and learnings are shared across our business. We encourage our people to challenge existing norms so that we ultimately deliver industry leading solutions to every challenge.

Safety And Assurance

Safety & Assurance is our foremost priority, since lives depend on it. We strive to prevent injuries and ill health of our people at all costs, and we believe that everyone must return home safely. We provide our people with the training, environment, and equipment to perform their work safely.

Integrity

Our reputation has been established over many years by consistently doing the right thing. Integrity and Character are as important as ability, which is why we build trust and act with honesty. We cultivate a culture of transparency and responsibility throughout our entire organisation.

Relationships

We depend on cordial relationships with our clients, business partners, and vendors. We ensure that we understand the people we deal with and their objectives so that we can strive towards exceeding expectations.

Financial Responsibility

Al Batin is cost aware and carefully manages its own, and its customers' costs. Financial risks are reviewed systematically and financial performance is being recorded in a clear and concise manner.

“Building Communities Together”

Chairman's **Message**

Since its formation in 2012, **Al Batin** has achieved an impressive 8 years legacy of successfully meeting its customers' requirements and exceeding their expectations. **Al Batin** is proud of its reputation as a contracting and commercial company in Middle East. Growing in a measured and managed series of intelligent investments, **Al Batin** owes many elements to its success today.

Strategies of diversification and international alliances shaping the growth of the enterprise today. **Al Batin** have already proven that strategy as more than viable, through the valuable links that we have formed with Contracting Companies active in the Saudhi Arabia market today. We pride ourselves in enabling world-leading organizations to achieve their targets in the country.

Al Batin foresees further diversification as a solid platform for growth in the years ahead – yet also remains staunchly committed to the fields of expertise in which its acumen is persistently demonstrated.

To meet the challenges of the current market conditions and to further improve our services to customers, **Al Batin** continues to invest in its management and employees, internal business processes and systems, and equipments. **Al Batin** is strengthening its core competencies as well as investing in the development of its capabilities to meet new challenges.

The greatest asset of **Al Batin** is its loyal, dedicated and hardworking employees. Al **Batin** therefore strives to continue to be recognized as an employer of choice and has established programs designed to retain and attract highly skilled and motivated professional managers and workforce.

Driven by the ambitions of expansion, Diversification and consolidation

Al-Batin is progressing with tremendous vigor.

“Quality in Everything we do”

Quality **Policy**

The company is dedicated to the quality policy that will ensure that its products and services fully meet the requirements of its customers at all times. The goal of the company is to achieve a high level of customer satisfaction at all times. The commitment to implementation of supporting managerial and business operational systems is essential to realizing that goal.

AL-BATIN ADVANCED CONTARCTING CO.LTD believes in the concept of client and supplier working together in pursuing this policy and in continually striving for improvements in service quality. We believe in the constant vigilance of health and safety to our staff and clients.

"Committed to Enhance Customer Satisfaction"

The quality policy is based on the following principles :
Ensuring that we fully identify and conform to the needs of our clients. Everyone understanding how to do their job in the right manner and ensuring the job is completed correctly the first time.

Looking at our service provision processes, identifying the potential for errors and taking the necessary action to eliminate them.

Ensuring that health and safety is adhered to at all times.
To ensure that the policy is successfully implemented, staff will be responsible for identifying customer requirements, and ensuring that the correct procedures are followed to meet those requirements. Objectives needed to ensure that the requirements of this policy are met and that the continual improvement is maintained in line with the spirit of the policy, will be set, determined and monitored at Management Review and Appraisals.

The quality policy principles and objectives will be communicated and available to staff at all times. Training will be an integral part of the strategy to achieve the objectives. We are all committed to operating continuously to this standard and we will maintain the necessary Quality Approvals consistent with our customers' requirements.

Our Company will constantly review and improve on our services to ensure tasks are completed in the most effective and timely manner for the benefit of all our customers.
We shall ensure that all our personnel understand and fully implement our Company's policies and objectives and are able to perform their duties effectively through our ongoing training and development program.

Manage your fleet anywhere with our Equipments

Civil Equipments

At **Al-Batin,** we're proud to be able to offer our customers a wide variety of options to meet their equipment needs. When renting is the best solution, our Heavy Rental group is ready to help – whether you need something short-term, long-term, or anywhere in between. If you're looking to rent larger pieces of equipment for your heavy-duty job site application, you'll find everything you need at our convenient

Excavator

Excavators are popular earth-moving vehicles that feature a bucket, arm, rotating cab, and movable tracks. These components provide superior digging power and mobility, allowing this heavy equipment to perform a variety of functions, from digging trenches and breaking holes to lifting away waste and excavating mines.

Wheel Loader

A loader is a heavy equipment machine used in construction to move or load materials such as soil, rock, sand, demolition debris, etc. into or onto another type of machinery

Backhoe Loader

A backhoe — also called a rear actor or back actor — is a type of excavating equipment, or digger, consisting of a digging bucket on the end of a two-part articulated arm. It is typically mounted on the back of a tractor or front loader, the latter forming a "backhoe loader"

Grader

Graders are built with a powerful engine, rugged A-frame and moldboard design, industry-leading flip-up rear hood, best-in-class serviceability and outstanding visibility. They'll make you more productive on the toughest jobs and longest days.

Dozer

The bulldozer is a very powerful crawler that is equipped with a blade. The term bulldozer is often used to mean any type of heavy machinery, although the term actually refers to a tractor that is fitted with a dozer blade. Often times, bulldozers are large and extremely powerful tracked vehicles. The tracks give them amazing ground mobility and hold through very rough terrain.

Dump Truck

A dumper is a vehicle designed for carrying bulk material, often on building sites. Dumpers are distinguished from dump trucks by configuration: a dumper is usually an open 4-wheeled vehicle with the load skip in front of the driver, while a dump truck has its cab in front of the load.

Roller Compactor

A road roller is a compactor-type engineering vehicle used to compact soil, gravel, concrete, or asphalt in the construction of roads and foundations. Similar rollers are used also at landfills or in agriculture. Road rollers are frequently referred to as steamrollers, regardless of their method of propulsion.

Skid Loader

The Bobcat Loaders can be used for multiple applications such as material handling, grading road cleaning, erection of road crash barriers, pavement repairs, brush cleaning in road sideways and many other jobs.

Water Tanker

Water tanks are used to provide storage of water for use in many applications, drinking water, irrigation agriculture, fire suppression, agricultural farming, both for plants and livestock, chemical manufacturing, food preparation as well as many other uses.

Crawler Crane

A crane is a type of machine, generally equipped with a hoist rope, wire ropes or chains, and sheaves, that can be used both to lift and lower materials and to move them horizontally. It is mainly used for lifting heavy things and transporting them to other places.

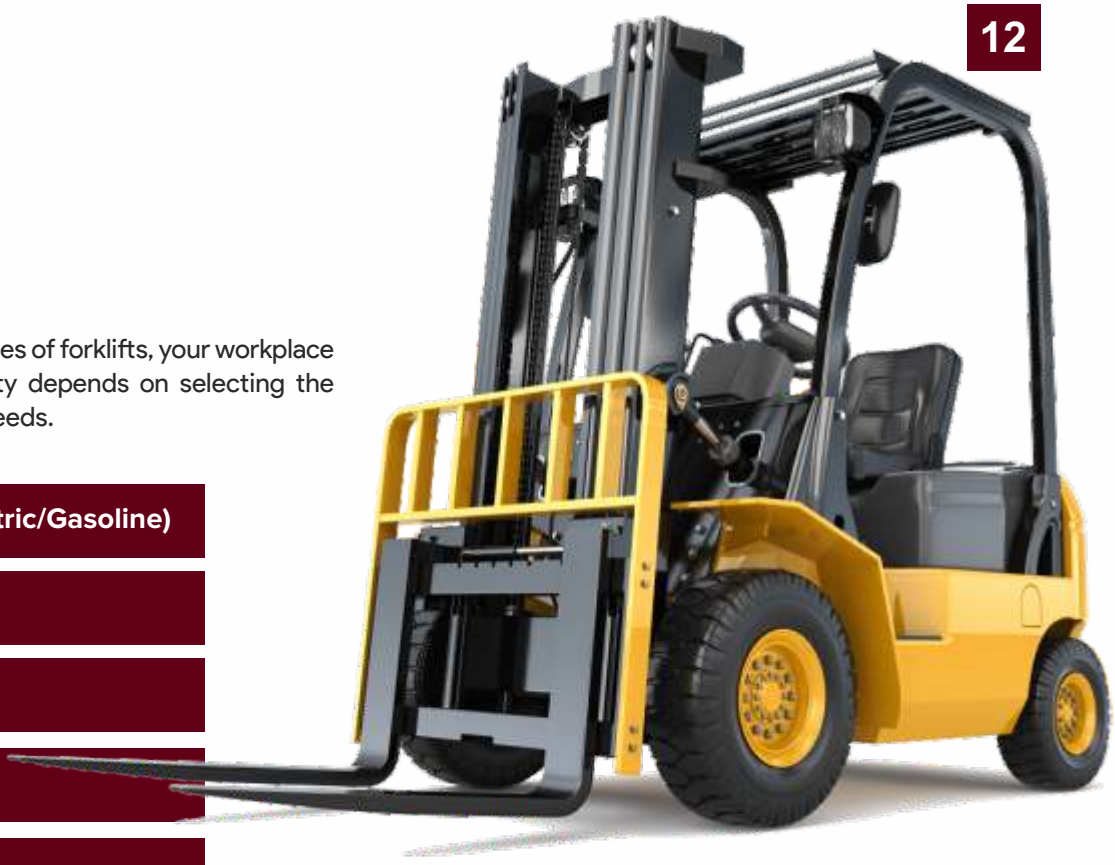

- Crane 50 Ton
- Crane 100 Ton
- Crane 150 Ton
- Crane 200 Ton
- Crane 300 Ton
- Crane 450 Tone

Dependability
all day.every day.

Fork **Lifts**

With so many different types of forklifts, your workplace efficiency and productivity depends on selecting the right equipment for your needs.

- **Fork Lift 3 Ton (Electric/Gasoline)**
- **Fork Lift 5 Ton**
- **Fork Lift 7 Ton**
- **Fork Lift 10 Ton**
- **Fork Lift 12 Ton**
- **Telescopic Forklift / Telehandler**

Trailers / **Buses**

We offer many standard Equipments that fit your exact requirements

- **Low bed Trailers**
- **Flat bed Trailers**
- **Bus 55 Seater Non A/C**
- **Bus 55 Seater A/c**
- **Mini Bus 15 Seater**
- **Mini Bus 30 Seater**

Boom Trucks

- Boom Truck 5 Ton
- Boom Truck 7 Ton
- Boom Truck 10 Ton
- Boom Truck 12 Ton
- Boom Truck 15 Ton

The first aspect of a boom truck is a hydraulic crane, which allows workers to lift heavy and sometimes unconventionally shaped items from floor to roof. A flatbed provides the second aspect of the boom truck, and space for items to be transported to and from different areas of a site.

Access Equipments

When it comes to construction sites, plenty of access equipment's including lifts, platforms, and access towers are needed to safely work at height. You can hire different types of access equipment to smoothly reach challenging workspaces.

Man Lift Telescopic
14m to 40m

Man lift Articulating
IIm to 40m

Scissor Lift
5m to 18m

Other **Equipments**

Generators 50kw to 500kw

Tower Lights

Compressors

Welding Machines

Rental Pickups

Diesel Tanker

Mobile Cranes

Tilt-Up Construction, and Roofing. Whether the mobile crane is being used for equipment and material transportation or for hoisting building materials to heights for installation, rental cranes are instrumental to the building industry.

- Crane 25 Ton
- Crane 35 Ton
- Crane 50 Ton
- Crane 60 Ton
- Crane 70 Ton
- Crane 80 Ton
- Crane 100 Ton
- Crane 150 Ton
- Crane 200 Ton
- Crane 400 Ton
- Crane 450 Ton

We're here for you Forever.
